**The Alaska Maritime National Wildlife Refuge (NWR) is not completely depicted. Areas where it is depicted are shaded, however, they are not outlined. The Alaska Maritime NWR is described as follows:**

The Alaska Maritime NWR consists of all public lands, including submerged waters and interests therein on islands, islets, rocks, reefs, spires, and designated capes and headlands in the coastal areas and adjacent waters of Alaska within the designated subunits: Chukchi Sea, Bering Sea, Aleutian Islands, Alaska Peninsula, and Gulf of Alaska Units, and includes an undetermined quantity of submerged land, if any, retained in Federal ownership at the time of suballotment around Kodiak and Adak Islands. The refuge is generally depicted on the USGS maps entitled, "Alaska Maritime National Wildlife Refuge" dated October 1979.

**Note:** This map shows general land ownership information. When reviewing this map, please remember that federal, ANCSA, and state land ownership is depicted, hierarchically, by entire sections. For example, any portion of a section (640 acres) falling within State Patented or Tentatively Approved land cannot be the whole section to be depicted as state land, even if the State Patented or Tentatively Approved land is only a fraction of the section, and federal land and/or ANCSA land also occurs in the section.

The land ownership hierarchy is as follows:

- State Municipal Entitlements or Land Exchanges or Other Land Disposals
- Patented Disposed Federal Lands (Native Allotments or Private Parcels)
- State Patented or Tentatively Approved or Other State Acquired Lands (includes easements 101-114, 116-117, 128-129)
- Alaska Native Claims Settlement Act (ANCSA) Patented or Interim Conveyed
- Major Military
- National Wildlife Refuges, National Park System Units
- National Wild & Scenic Rivers outside National Park System Unit and National Wildlife Refuges
- National Forests and Monuments, National Petroleum Reserve-Alaska, National Recreation Areas and National Conservation Areas
- Bureau of Land Management Public Lands

Note: This map generalizes federal land ownership information. When reviewing this map, please remember that federal, Alaska, and state land ownership is depicted hierarchically by nested sections. For example, any portion of a section (640 acres) held within State Patented or Tentatively Approved lands carries the whole section to the estate level. Even if the State Patented or Tentatively Approved land is only a fraction of the section, and federal land under ANCSA also occurs in the section.

The land ownership hierarchy can be follows:

- 1. State Municipal Institutions and Land Exchanges or Other Land Disposals
- 2. Patented Disposed Federal Lands (Native Allotments or Private Purchases)
- 3. State Patented or Tentatively Approved or Other Acquired Lands  
(includes canteenplots 101-114, 116-117, 128-129)
- 4. Alaska Native Claims Settlement Act (ANCSA) Patented or Interest Conveyed
- 5. Major Military
- 6. National Wildlife Refuges, National Park System Units
- 7. National Wild & Scenic Rivers outside National Park System Units and National Wildlife Refuges
- 8. National Forests and Monuments, National Petroleum Reserve-Alaska, National Recreation Areas and National Conservation Areas
- 9. Barrens of Land Management Public Lands.
